Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 March 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Gilson et al.

Gilson et al shows the use of a head restraint support (40) for a foldable head restraint, the head restraint support capable of holding a bun (48,50), comprising a latch mechanism for locking head restraint support in a design position (Fig. 2). The head restraint has a rotational hole (see Figs. 3 and 6) for receiving a rotational shaft (46), the head restraint support pivoting about the rotational shaft. The head restraint is further comprised of a metal substrate (26) for holding the bun, where the metal substrate is enclosed at least partially by an over-molded geometry (see Fig. 1), which is generally cylindrical. The head restraint support has a stabilizer hole for receiving a stabilizer rod (28) and the latch mechanism has a first latch surface (see Fig. 5) for engagement with a first stop (56) and a second latch surface (54) for engagement with a first cam surface (58). Regarding claims 11-18, Gilson shows the use of a first and second head restraint (41) a bracket (34) and a cam (66) with a latch mechanism (64). A rotational bar (46) extends between the first and second head restraint supports along with a stabilizer bar (28). A first stop pin (52) is attached to the bracket whereby the latch has a first surface engageable with the stop pin to prohibit motion of the head restraint support and the primary latch has a second surface

(67) that engages the cam. The metal substrate is inherently formed from a metal fabrication process.

Allowable Subject Matter

Claims 19-32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 1-18 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
